January 2021 E-Newsletter: Reflections & Focus

I am confident when I say that most of us are looking forward to the New Year.

The Georgia Perinatal Association Board recently held its first official meeting of 2021 via Zoom.

Everyone is ready to pick up where we left off in 2020 because the passion we all have for mothers, babies and healthy outcomes.

Covid-19 has taken center stage during 2020, putting our healthcare workers to the test.

In the State of Georgia, we have seen over 650,000 cases. I hope that many of you have already received at least your first dose of the Pfizer Covid-19 vaccine.

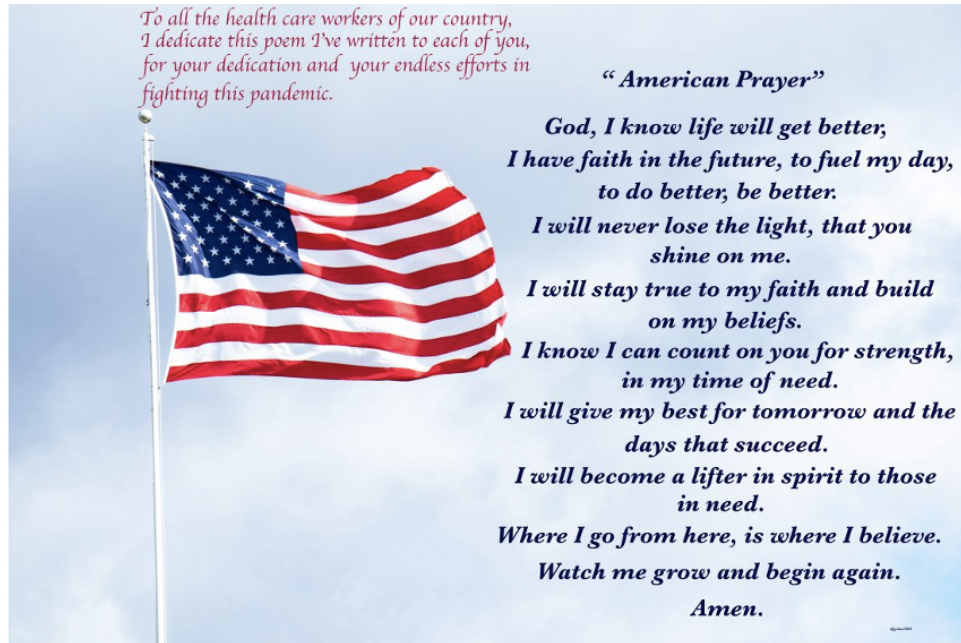

On a brighter note, we are looking forward to hosting our 2021 Georgia Perinatal Association Conference IN PERSON at the lovely King and Prince Golf and Beach Resort on St. Simon's Island, Georgia. Stay tuned for dates!!!

I would also like to encourage you to reach out to your colleagues in the

hospitals, clinics, public health, and private practices and ask them to become a member of GPA, support the mission, increase awareness, and become involved.

Let's stay focused on our mission. Looking forward to seeing you in September!!!!

Kelly Hunt
